

Law and Legislation Committee

The Law and Legislation Committee is recruiting

With the continued growth of the Federation, and the continuing movement to becoming an ever more professional organisation, the range of issues which the membership and the Board face throughout the year is increasing. With an increase in activity, comes more opportunity for members to be involved in supporting the Federation and its drive to become bigger and better.

Not all of these issues arise out of disputes between stakeholders. These do happen and the committee acts as a sense-check for members and the Board, offering advice to diffuse matters before they escalate too far for the benefit of all involved.

The committee is commonly asked to opine on the interpretation of the Federation's constitution and by-laws, applying the rules to the situation, and assisting with a strategy for resolution. Whilst the questions may be discrete, they all highlight areas for improvement and so the committee assists with wider policy decisions.

If you want to lend a hand to the Federation, but can't always commit to a weekend of spotting and loading, giving your time to support the legal issues which the Federation faces is a great way to do so. The Committee is keen to hear from any member who would like to join its ranks. Aside from having a legal or commercial background, there are no other formal requirements. We look forward to hearing from any and all interested members.
