

Athlete's commission report 2017.

The year has been very quiet.

The number 1 issue of any British Powerlifting member is communication from the administration to the lifters whether it be changes of weigh in time at a Nationals or just general letting the membership know what's going on with British Powerlifting, Results international teams NGB status.

I still believe the lifters commission needs to be promoted more on the website.

We could do this by having a tab on the home screen of the website saying contact lifters commission.

Dean Bowring

Lifters Commission chairman
