

Chairman's Report 2020

Another successful year for British Powerlifting, Membership continues to grow, many members achieving considerable success at World and European Championships. The executive continue to work toward governing body status and I believe we can now see a light at the end of the tunnel.

Championships are well attended, spectator numbers could be better live streaming no doubt has an effect on this.

We have a dedicated number of BP referees who officiate at our national events it would be nice to see a few more of our three hundred plus referees officiating. Mike Edwards stepped down as financial director we thank him for all his hard work over the last few years.

David Turner has been appointed as financial director, Dave has long history in the sport.

Tony Cliffe has taken over the roll of chairman of the athletes committee after Dean retired from the position.

I feel we have a competent executive going in to 2020

I wish a prosperous and successful new year to all our members.

Fred Sterry
