

11th April 2025.

Dear Membership / Board of directors.

On the 10th April 2025 a motion was put forward for a vote of no confidence in myself and the Chair of the federation.

The motion detailed a number of reasons as to why the two individuals wish to table this motion. All of which can (in my opinion) be categorised under three headings.

- Baseless.
- Slanderous.
- Having already been dealt with at DC level, and defended.

Whilst a member has the right to table a motion, I requested these matters to be referred to the DC for validity before having the motion tabled. The board took the decision to allow these allegations to be tabled without any proof or rationale.

It is with the above in mind I have no choice other than to resign with immediate effect, without the support of the board there is clearly no appetite for me to continue leading this organisation.

Since the EGM in July 2023, I am proud of what a few individuals and I have managed to achieve. A huge vote of thanks to those who have supported myself and the federation in this process.

To the few individuals who have consistently campaigned to burn the house down, I hope that now you manage to step up and fill the void whilst holding yourselves to the standards to which you expect others to.

A handwritten signature in black ink, appearing to read "James Brincat-Smith".

James Brincat-Smith.
